Lessons learned from one of New Zealand’s most challenging civil engineering projects: rebuilding the earthquake damaged pipes, roads, bridges and retaining walls in the city of Christchurch 2011 - 2016.

Original ECI process flowchart

**Story:** Early Constructor Involvement (ECI)
**Theme:** Programme Management

An early swim lane diagram which visually distinguishes responsibilities for SCIRT’s ECI process.

This document has been provided as an example of a tool that might be useful for other organisations undertaking complex disaster recovery or infrastructure rebuild programmes.
